Hello Chris,

As discussed here is the confirmation of the schedule and needs; please let me know if there are any clarifications required.

Thank you

Steve

Subject: Silverton Soils Investigation Proposal/Description - schedule

Martin,

Mayor Tookey and I just spoke and she explained the Town Board's plan to address the soil sampling topic. In short, they are not having a meeting on this topic next Monday, July 27th, and they will determine a date later in the summer to discuss this after having time to look over our proposal. The paper that Joyel is coordinating the preparation of will be provided to the Town trustees for later discussion. So, if we get it them on Monday, July 27th that's adequate in the Mayor's opinion. That will give us time to pull together the appropriate figures and prepare the paper with input from the team.

You will see a draft shortly; we have worked on it together with Liz and Susan.
